Komplet jobbeskrivelse

If you are a current DSV employee and interested in a position in another country, please contact your Human Resource representative to discuss the process and requirements of applying.

Logistics Engineer – shape the future of The Groupage Cross Dock Terminals in DSV.

Do you want to design and develop DSV's European Groupage Cross Dock Terminals?

Then join us in this vital role where your contributions will be instrumental in the extensive transformation of our Cross Dock Terminals. We offer a stimulating work culture that values innovation, collaboration, and individual growth.

Join our growing European Groupage Network team.

You will be joining a still-growing team central to our efforts to become One High-Performing Network within DSV, which is embodied in our 2027 European Groupage Network strategy.

The international team of 23 is mostly based at the DSV headquarters in Hedehusene, Denmark. However, you are not required to be based here, as we offer a hybrid work environment where many of your new colleagues work from DSV offices in Germany and the Netherlands.

"We take great pride in the strong internal cooperation within the team and foster meaningful connections across DSV and throughout Europe," says European Groupage Network, Development & Engineering Director, Niels Jørgen Nielsen.

Develop, research, and standardise Cross Dock concepts and processes.

As our new logistics engineer, you will have a central role in the continuous development and standardization of our Cross Dock Terminals. You will implement strategies, research on innovation, and create standards within our Groupage Cross Dock Terminals. Furthermore, you will drive our standardization journey across Europe, collaborating with colleagues throughout DSV Road network.

More specifically, your key tasks include:

- Developing and implementing cross dock strategies to optimize our internal processes and structure.
- Monitoring and coordinating implementation of our right-sizing strategy and standardization journey.
- Working with our digital cross dock terminal twin to identify and implement improvements in different workflow processes to increase efficiency and reduce handling costs.
- Ensuring compliance with regulatory requirements and quality standards related to our cross-dock terminals.
- Collaborating with internal and external stakeholders to ensure that we will become our "High-performing Cross Dock terminal."

This job will take you travelling approx. 45 days a year.

Solid Cross Dock and Groupage network experience

You are quick to understand processes, and with your strong collaboration and communication skills, you excel at conveying messages at all levels of an organisation. It is also crucial that you can maintain an overview in a very busy work environment where things often change rapidly.

Also, we expect you to:

- Have 5+ years of experience in the transport and logistics industry.
- Bring in-depth knowledge of cross dock processes and structure.
- Know your way around TMS, driver scanners, master data, routing, zoning logic and reorganisation etc.
- Have project experience and know how to observe deadlines.
- Have experience in developing and implementing new processes and standards.
- Understand regulatory requirements and quality standards within our Cross-dock terminals.
- Have experience working with; designing and maintaining SOPs, implement new structure and continuous improvement.
- Can think out of the box when it comes to innovative technology.
- To have a hands-on mentality when it comes to solution design and thinking.
- Speak and write English effortlessly.

Want to know more and apply?

We will be happy to answer any questions you may have regarding the position and about your options in DSV. You are welcome to call Andre Reijmer, Manager Cross Dock Terminal, EGN

Development & Engineering on +31 (0)6 57 00 67 27.

We look forward to receiving your application via the link below as soon as possible. We will process the applications as we receive them.

DSV – Global transport and logistics

DSV is a dynamic workplace that fosters inclusivity and diversity. We conduct our business with integrity, respecting different cultures and the dignity and rights of individuals. When you join DSV, you are working for one of the very best performing companies in the transport and logistics industry. You'll join a talented team of approximately 75,000 employees in over 80 countries, working passionately to deliver great customer experiences and high-quality services. DSV aspires to lead the way towards a more sustainable future for our industry and is committed to trading on nature's terms.

We promote collaboration and transparency and strive to attract, motivate and retain talented people in a culture of respect. If you are driven, talented and wish to be part of a progressive and versatile organisation, we'll support you and your need to achieve your potential and forward your career.
