Company Description

About us

We believe in the power of ingenuity to build a positive human future. As strategies, technologies and innovation collide, we create opportunity from complexity. Our diverse teams of experts combine innovative thinking and breakthrough use of technologies to progress further, faster. Our clients adapt and transform, and together we achieve enduring results. An innovation and transformation consultancy, we are over 4000 specialists in consumer and manufacturing, defence and security, energy and utilities, financial services, government and public services, health and life sciences, and transport. Our people are strategists, innovators, designers, consultants, digital experts, scientists, engineers and technologists.

We operate globally from offices across the UK, US, Netherlands and Nordics.

PA. Bringing Ingenuity to Life.

Job Description

Do you want to help transform some of Denmark's largest companies?

Are you passionate about creating results, and would you like to kickstart your career as a management consultant? If so, you may be PA's new junior consultant. We are looking for ambitious and razor-sharp junior consultants to join our large student team. The position allows you to work with exciting projects across diverse business areas at different clients. You will work closely with our experienced consultants on projects within advanced analytics, change management, IT and digital transformation and agile. We offer you a versatile and challenging student job that will prepare you for a career as a management consultant with practical and relevant work experience. You will have a unique opportunity to develop both your professional and personal competencies.

As a junior consultant, you will be involved in many different types of tasks such as:

- Delivering client projects together with a team of experienced consultants
- Knowledge gathering and analysis work for both internal and external projects
- Proposal work and developing project plans, presentations and resource planning
- Business development, assisting in handling client tasks and making sure that ongoing projects are on track
- Participating in long-term internal projects developing new business concepts and strategies
- Helping facilitate workshops, both internally and externally.

The position provides you with a steep learning curve where you will be challenged from your first working day. You will get to work both independently and in teams within a flexible working environment with a deep understanding of your studies. As a student, you will be part of a professional workplace while also having the opportunity to join weekly social activities.

Qualifications

- You are in the last year of your bachelor's degree or the first year of your master's degree
- You are studying in the intersection between technology and business, engineering, business administration, economics or social sciences
- You are methodically and analytically strong and have the ability to quickly familiarise yourself with and solve complex problems
- You are among the most talented in your year
- You are ambitious, enthusiastic, and focused on delivering the best results.

You have good interpersonal and communication skills, and you are fluent in English, both in writing and speech.

Additional Information

If the above sounds interesting to you, do not wait to apply! We will be conducting interviews during June. If you have any questions about the position, you are welcome to contact Sanna Austrell: sanna.austrell@paconsulting.com Send us your CV with GPA, application (cover letter) and exam transcripts from your bachelor's degree through our career site. We do not accept applications by email.

Application deadline: 25th of April 2025

Inclusion & Diversity

We believe that diversity makes us a stronger firm and look to employ people with different ideas, styles and skill sets. This diversity stimulates a rich, creative environment – one in which our people develop, and our clients enjoy enduring results. We're committed to recruiting, promoting and rewarding our people solely based on their ability to contribute to PA's goals, without regard to their sex, race, disability, religion, national origin, ethnicity, sexual orientation, military service obligation, age or marital status.

Should you need any adjustments to the recruitment process, at either application or interview, please contact Sanna Austrell: sanna.austrell@paconsulting.com
